

Freshwater Biology

Edited by D. W. Sutcliffe

Volume 9, 1979

Blackwell Scientific Publications
Oxford, London, Edinburgh and Melbourne

Published by
Blackwell Scientific Publications
Osney Mead, Oxford

Edited by D. W. Sims

Volume 7, 1979

Printed and bound in Great Britain by
Adlard & Son Ltd, Bartholomew Press, Dorking

CONTENTS

VOL. 9, NO. 1, FEBRUARY 1979

- 1 *K. Sand-Jensen and M. Søndergaard*: Distribution and quantitative development of aquatic macrophytes in relation to sediment characteristics in oligotrophic Lake Kalgaard
- 13 *C. Howard-Williams and B. R. Davies*: The rates of dry matter and nutrient loss from decomposing *Potamogeton pectinatus* in a brackish south-temperate coastal lake
- 23 *R. Landau*: Growth and population studies on *Tilapia galilaea* in Lake Kinneret
- 33 *T. I. Furnass*: Laboratory experiments on prey selection by perch fry (*Perca fluviatilis*)
- 45 *B. Finlay, P. Bannister and J. Stewart*: Temporal variation in benthic ciliates and the application of association analysis
- 55 *C. S. Reynolds*: Seston sedimentation: experiments with *Lycopodium* spores in a closed system

Brief communications

- 77 *K. K. Exner and R. W. Davies*: Comments on the use of a standpipe corer in fluvial gravels
- 79 *D. Dudley Williams and H. B. N. Hynes*: Reply to comments by Exner and Davies on the use of a standpipe corer
- 81 Book Reviews
- 83 Short Notice

VOL. 9, NO. 2, APRIL 1979

- 85 *K. H. Nicholls*: A simple tubular phytoplankton sampler for vertical profiling in lakes
- 91 *H. Casey and R. T. Clarke*: Statistical analysis of nitrate concentrations from the River Frome (Dorset) for the period 1965–76
- 99 *Lennart Persson*: The effects of temperature and different food organisms on the rate of gastric evacuation in perch (*Perca fluviatilis*)
- 105 *C. E. Gibson and R. J. Stevens*: Changes in phytoplankton physiology and morphology in response to dissolved nutrients in Lough Neagh, N. Ireland
- 111 *C. Roux*: The influence of some ecological factors on the metabolism–temperature curve of the larvae of *Limnephilus rhombicus* (Trichoptera, Limnephilidae)
- 119 *I. R. Smith*: Hydraulic conditions in isothermal lakes
- 147 *David C. Wartinbee*: Diel emergence patterns of lotic *Chironomidae*
- 157 *S. P. Mundy and J. P. Thorpe*: Biochemical genetics and taxonomy in *Plumatella fungosa* and *P. repens* (Bryozoa: Phylactolaemata)
- 165 *Graham Titmus*: The emergence of midges (Diptera: Chironomidae) from a wet gravel-pit

Brief communication

- 181 *D. M. Beattie*: A modification of the Ekman–Birge bottom sampler for heavy duty

VOL. 9, NO. 3, JUNE 1979

- 183 *A. A. Olatunde*: The food and feeding habits of *Physalia pellucida* and *Schilbe mystus* with notes on the diets of *S. uranoscopus* and *Siluranodon auritus*, family Schilbeidae (Osteichthyes: Siluriformes) in Lake Kainji, Nigeria
- 191 *A. L. Baker and Kathleen Kromer Baker*: Effects of temperature and current discharge on the concentration and photosynthetic activity of the phytoplankton in the upper Mississippi River
- 199 *M. J. McElhone*: A comparison of the gut contents of two co-existing lake-dwelling Naididae (Oligochaeta), *Nais pseudobutusa* and *Chaetogaster diastrophus*
- 205 *W. T. Sumner and S. G. Fisher*: Periphyton production in Fort River, Massachusetts
- 213 *M. Jansson*: Nutrient budgets and the regulation of nutrient concentrations in a small sub-arctic lake in northern Sweden
- 233 *E. S. Brammer*: Exclusion of phytoplankton in the proximity of dominant water-soldier (*Stratiotes aloides*)
- 251 *D. R. Towns*: Composition and zonation of benthic invertebrate communities in a New Zealand kauri forest stream
- 263 *J. S. Welton*: Life-history and production of the amphipod *Gammarus pulex* in a Dorset chalk stream

Brief communications

- 277 *K. P. Lautenschlager, N. K. Kaushik and J. B. Robinson*: A sample holder for decomposing and processing delicate biological materials for scanning electron microscopy
- 281 *D. M. Karl*: Comments on a paper by J. G. Jones and B. M. Simon, 'Increased sensitivity in the measurement of ATP in freshwater samples with a comment on the adverse effect of membrane filtration'
- 285 *J. G. Jones*: Reply to the comments by D. M. Karl
- 289 Book Reviews

VOL. 9, NO. 4, AUGUST 1979

- 291 *B. J. Oden*: The freshwater littoral meiofauna in a South Carolina reservoir receiving thermal effluents
- 305 *P. A. Cranwell*: Decomposition of aquatic biota and sediment formation: bound lipids in algal detritus and lake sediments
- 315 *H. de Haan, T. de Boer and G. Halma*: Curie point pyrolysis mass-spectrometry of fulvic acids from Tjeukemeer, The Netherlands
- 319 *Judith C. Hossell and J. H. Baker*: Estimation of the growth rates of epiphytic bacteria and *Lemna minor* in a river
- 329 *B. Z. Cavari and O. Hadas*: Heterotrophic activity, glucose uptake and primary productivity in Lake Kinneret
- 339 *D. P. Hewitt*: Tests to confirm quantitative sampling of young fish by the Bagenal buoyant net
- 343 *J. A. Adcock*: Energetics of a population of the isopod *Asellus aquaticus*: Life history and production
- 357 *T. B. Reynoldson and Bronwen Pearce*: Feeding on gastropods by lake-dwelling *Polycelis* in the absence and presence of *Dugesia polychroa* (Turbellaria, Tricladida)

- 369 *J. A. Rother and P. Fay*: Some physiological-biochemical characteristics of planktonic blue-green algae during bloom formation in three Salopian meres
- 381 *Peter G. Meier, David L. Penrose and Loren Polak*: The rate of colonization by macro-invertebrates on artificial substrate samplers
- 393 Book Reviews

VOL. 9, NO. 5, OCTOBER 1979

- 397 *Editorial*: Some notes to authors on the presentation of accurate and precise measurements in quantitative studies
- 403 *Austin B. M. Egborge*: The effect of impoundment on the water chemistry of Lake Asejire, Nigeria
- 413 *G. P. Harris, S. I. Heaney and J. F. Talling*: Physiological and environmental constraints in the ecology of the planktonic dinoflagellate *Ceratium hirundinella*
- 429 *F. P. Healey and L. L. Hendzel*: Fluorometric measurement of alkaline phosphatase activity in algae
- 441 *L. G. Willoughby and J. H. Marcus*: Feeding and growth of the isopod *Asellus aquaticus* on actinomycetes, considered as model filamentous bacteria
- 451 *Richard B. Brugam*: A re-evaluation of the Araphidineae/Centrales index as an indicator of lake trophic status
- 461 *J. M. Elliott, R. E. R. Mugridge and H. G. Stallybrass*: *Haementeria costata* (Hirudinea: Glossiphoniidae), a leech new to Britain
- 467 *U. H. Humpesch*: Life cycles and growth rates of *Baetis* spp. (Ephemeroptera: Baetidae) in the laboratory and in two stony streams in Austria
- 481 *Bo Riemann*: The occurrence and ecological importance of dissolved ATP in fresh water
- 491 *W. D. Williams*: The distribution of *Asellus aquaticus* and *A. meridianus* (Crustacea Isopoda) in Britain

VOL. 9, NO. 6, DECEMBER 1979

- 503 *G. W. Redfield and W. F. Vincent*: Stages of infection and ecological effects of a fungal epidemic on the eggs of a limnetic copepod
- 511 *J. M. Elliott, J. P. O'Connor and M. A. O'Connor*: A key to the larvae of Sialidae (Insecta: Megaloptera) occurring in the British Isles
- 515 *J. Sarvala*: Effect of temperature on the duration of egg, nauplius and copepodite development of some freshwater benthic Copepoda
- 535 *R. S. Hancock*: The annual cycle of intraovarian egg size and fecundity of the barbel *Barbus barbus* in the River Severn
- 543 *Craig E. Williamson and Gail Williamson*: Life-cycles of lotic populations of *Spongilla lacustris* and *Eunapius fragilis* (Porifera: Spongillidae)
- 555 *John M. Melak*: Photosynthetic rates in four tropical African fresh waters
- 573 *D. L. Morris and M. P. Brooker*: The vertical distribution of macro-invertebrates in the substratum of the upper reaches of the River Wye, Wales
- 585 *R. A. Watson and P. L. Osborne*: An algal pigment ratio as an indicator of the nitrogen supply to phytoplankton in three Norfolk broads
- 595 Author Index
- Index to Volume 9
